

V O L V O

Join us in driving the transport industry's digital transformation.

YOUR APP. OUR PLATFORM.

Volvo Trucks. Driving Progress

Let's collaborate

Get your Android app into Volvo Trucks' in-vehicle app platform. And together we can improve our customers' transport operations and profitability.

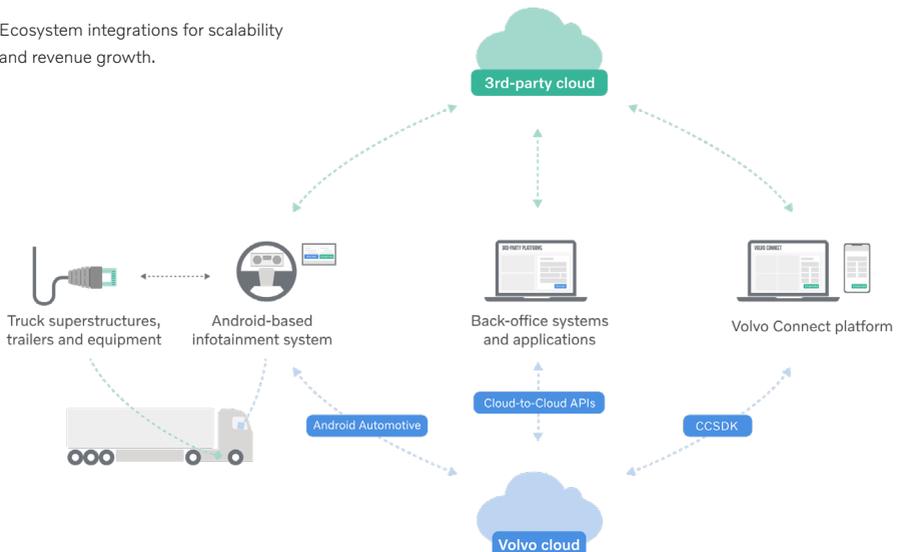

Connect to a growing digital ecosystem

Become part of the Volvo Trucks app community and join forces with a leading global truck brand. Our growing base of connected trucks, together with Volvo Connect, gives you access to an expanding industry-specific ecosystem for digital services.

Why collaborate with Volvo Trucks?

- / Improve our common customers' operations and profitability.
- / Connect with new customers and markets.
- / Enhance your services with our vehicle data.
- / Join a growing industry-specific ecosystem for digital services.

Ecosystem integrations for scalability and revenue growth.

How it works

Visit Volvo Trucks Developer portal for a step-by-step guide on how to make your Android app compatible with Volvo Trucks' in-vehicle app platform.

1. Explore

Explore our developer resources and learn about what's possible. When you are ready, contact us and let's discuss a potential collaboration.

2. Build and Test

Build, test, and validate your service with the help of our developer resources and dedicated support channels.

3. Publish

Contracts are signed, and your app or service is ready for distribution. We'll be sure your service gets provisioned, sold, and delivered through the Volvo Connect ecosystem.
